

PRODIGY INTERN TASK 1

NAME:ARUL DANICA SHEENA D

DATASET: SELLING PRODUCT

SUMMARY:

I have taken a dataset which gives information about the buying habits of people in the US and the selling of products with product id and order id.

As the first task suggested we create a histogram I have created a histogram comparing the important parameters no of customers and product to find the best selling product.

I have used PoweBi for visualization and taken a dataset from kaggle.Kindly go through the visualization.
